

# Deanna Cioffi, Retail Manager Student Center Commons

*"I have recently started with Georgia Tech Dining Services not to long ago and I am happy to say that this place has such a wonderful, talented group of employees, staff, and students. Everyone has welcomed me with such warmth that I look forward on coming to work to learn and implement services to all of our guests. Seeing my guests happy is the most important aspect to any foodservice industry. Without the guest we are nothing. I have been in campus services for approximately 4 years and have continued to learn and grow within the company and I am very excited to be on board at Georgia Tech. I feel and see that Georgia Tech Dining has so much growth and potential and I look forward to be part of any transformation Georgia Tech Dining may have in the years to come."*
